

The secret “INVESTMENT” almost all wealthy people make...

Have you ever wondered why some people are wildly successful in life while others seem to constantly struggle just to get ahead? Or better yet, have you ever wondered why some people join Xooma Worldwide and become **virtual millionaires** in 6 months while other people struggle to sponsor just one or two people?

Chances are, when you look closely at the most successful people in the world today, you'll find that they all have one thing in common...

They never stop learning.

In other words, successful people make a habit of investing time and money in the most powerful asset they own - **themselves**. While the average person wastes hours a day watching television, the successful person often spends that same time reading books, going to educational seminars, and listening to audio training programs. Instead of finding a collection of the latest music CD's in their car, most successful people use their car as their "classroom on wheels" by listening to personal development programs taught by other successful people.

According to one of the world's most recognized success coaches, Brian Tracy, "*one of the smartest things that you can do is to **invest 3 percent of your income** every month back into yourself on personal and professional development on becoming better at the most important things you do. In fact, if you just invested as much in your mind each year as you do in your car, that alone could make you rich.*"

Think of yourself (your mind) as *YOU Incorporated*. Since YOU are the most important factor in your success with Xooma Worldwide, how much are you currently investing in YOU? Consider these important questions...

- How much have you "invested" in additional education for yourself since you finished your regular schooling (high school or college)?
- How many hours a week do you watch television? How much of that "TV time" could you spend learning new skills that could change your financial future?
- What do you normally listen to in your car? Do you scan the radio constantly looking for your favorite songs and talk shows, or do you listen to the wisdom of other successful people through personal development audio programs?

As Xooma's Co-Founder Dan Putnam often says, "*Success leaves clues.*" In other words, if you want to be successful, you simply need to **learn and duplicate** the things that other successful people do. And thanks to a new Xooma training program, we're about to make it easier than ever to gain the skills you need to succeed in your business.

Imagine...

...learning the exact methods and skills you need to grow a successful Xooma business from the people who have actually done it.

...having access to some of the world's top success coaches & trainers as they teach you the proven, time-tested principles that have allowed ordinary people to achieve extraordinary results.

...getting this powerful training information on audio CD's once a month so that you could review the information as often as you like in order to effectively learn and apply the skills in your own business.

Introducing...

the Xooma “Monthly Audio Program” (M.A.P.)

In order to give you access to most powerful, time-tested methods and skills you need to achieve great success with Xooma Worldwide, we have created a monthly audio training series unlike anything ever seen in this industry.

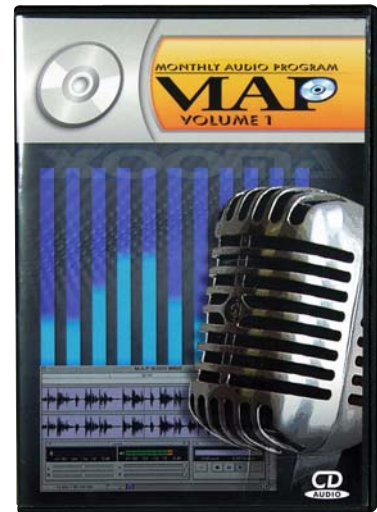

As a “M.A.P.” subscriber, you’ll receive **two** dynamic audio training CD’s every month in a professional carrying case for easy access wherever you go. **The first CD** will feature exclusive business training from some of Xooma’s Top Leaders and Corporate Team Members. Occasionally, this CD will also feature special product & health information from wellness experts like Brad King.

The second CD will feature personal development training from some of the world’s top success coaches & trainers. People like **Earl Nightingale, Zig Ziglar, Brian Tracy, & Dr. Wayne Dyer** just to name a few. These special training messages will not only apply to your Xooma business, in many cases, they’ll also be a positive influence in many other areas of your life as well.

Are you willing to “invest” just .30 cents a day in your own success?

One of the key ingredients to Xooma’s rapid success is that we’ve made it extremely easy & affordable for just about anyone to start and grow a Xooma business. And while the training information in the Monthly Audio Program (M.A.P.) has the power to help you earn **thousands** or even **tens of thousands of dollars a month**, your cost to subscribe is *only* \$8.95 (USD) per month.

Compare that small amount to the monthly bill for your cable or satellite TV subscription (*typically \$40 - \$100 per month*) and you’ll probably wonder how we can offer so much value at such a low price. Quite honestly, the reason we’ve priced this training program so low is that **we know** it will have a dramatic impact on your future success & income in Xooma. Remember...the more YOU succeed, the more WE succeed! So, if you’re serious about your success, we’re serious about helping you make it happen.

It's time to turn **your car** into your very own “classroom on wheels” (just like the wealthy do) by “investing” in yourself and your Xooma business with a subscription to Xooma’s Monthly Audio Program. Not only will you learn the skills and techniques you need to make money in your Xooma business, there’s a very good chance that your monthly subscription will be considered a tax-deductible business expense. (*Another* reward for investing in your own success!)

No additional shipping costs!*

In addition to making Xooma’s Monthly Audio Program so affordable, we’ve set it up so that you can add the “M.A.P.” to your monthly autoship order and avoid a separate shipping cost.* That’s a savings of \$5.00 - \$7.95 (based on shipping destination) by simply adding this program to your regular autoship order. **So, don’t delay - order today.** You’ll be glad you made this investment in yourself – especially when you start to see your business and income grow!

To add the Monthly Audio Program (M.A.P) ITEM #3000 to your next autoship order, login to the back office of your Xooma website and select “Edit Autoship”, or call the Member Services Department at (888) 865-6687.

***In most cases**, the M.A.P. can be added to your monthly autoship order with no additional shipping costs. In some cases, you may see a small addition to the normal shipping cost due to an increased package size or weight when adding the M.A.P. to your order.
